

Report on activities relating to the Momentum for Change initiative and Action for Climate Empowerment at the UNFCCC Conference in Marrakesh, Morocco (COP22)

I. Background

The secretariat of the United Nations Framework Convention on Climate Change, the Kyoto Protocol and the Paris Agreement (the secretariat) has recognized the need to give visible recognition to the positive action on climate change already occurring, to encourage successful activities to scale up, going beyond the technological, economic and social tipping point, and ushering in the low-carbon, high resilient society of the future.

Taking advantage of the high visibility and international attention afforded to the UNFCCC process, during the seventeenth session of the Conference of the Parties (COP 17) and the seventh session of the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol (CMP 7) in Durban, South Africa, the secretariat launched Momentum for Change to highlight successful activities already occurring on the ground. Showcasing activities at this level assists in stirring higher levels of interest and aspiration, whilst also sharing lessons learnt by established practical climate change projects.

Momentum for Change currently has five pillars:

- **Women for Results:** recognizing the critical leadership and participation of women in addressing climate change, implemented in collaboration with Masdar's WISER initiative
- **Financing for Climate-Friendly Investment:** recognizing successful financial innovations for adaptation and climate mitigation, implemented in partnership with the World Economic Forum Global Project on Climate Change
- **ICT Solutions:** recognizing successful climate change activities in the field of information and communication technology. This focus area is implemented in partnership with the Global e-Sustainability Initiative
- **Planetary Health:** recognizing novel solutions that balance the need for both human health and a healthy planet, implemented with the support of The Rockefeller Foundation
- **Climate Neutral Now:** recognizing efforts by individuals, companies and governments that are achieving real results in transitioning to climate neutrality, implemented in partnership with the secretariat's Climate Neutral Now initiative.

Through its work in promoting Action for Climate Empowerment (ACE), the secretariat collaborates and coordinates with national governments, United Nations organizations, other intergovernmental organizations, the private sector, civil society and youth organizations, to catalyse action for the implementation of the Doha work programme on Article 6 of the Convention related to climate change education, training, public awareness, public access to information, public participation and international cooperation on these issues.

Connect4Climate, a global partnership program of the World Bank Group on climate change communication, works to support the UNFCCC secretariat’s work on ACE to catalyse action for the implementation of the Doha work programme on Article 6 of the Convention related to climate change education, training, public awareness, public access to information, public participation and international cooperation on these issues.

II. Objective

The World Bank’s Connect4Climate program supported to implement a series of activities during the twenty-second session of the Conference of Parties (COP 22), the twelfth session of the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol (CMP 12) and the first session of the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement (CMA 1) in Marrakech, Morocco, focusing on the critical role that young people and the public at large have in mobilizing climate solutions.

III. Description of activities and deliverables

Young and Future Generations Day, High-level Intergenerational Inquiry, Nov 10: Connect4Climate joined the high-level Intergenerational Inquiry with a youth representative, Ms. Kaia Rose, winner of the Film4Climate special prize, to highlight its Youth4Climate initiative to empower young people to accelerate climate action. In addition, Connect4Climate’s trailer was presented.

Award Ceremony for Global Youth Video and Film4Climate Competitions, Nov 10: The Award ceremony's aim was to highlight the winners of Global Youth Video Competition and the Film4Climate Global Video Competition, as well as the finalists of the Connect4Climate Sustainable Worlds on Minecraft contest. It served as an opportunity to showcase inspirational stories, as well as to demonstrate the power of young people to act as key players in reaching innovative and ambitious solutions on climate change all over the world. The award ceremony was followed by a youth reception.

Education Day, Nov 14: Education-related events featured Connect4Climate speakers to present educational activities and best case studies, and the high-level event provided an opportunity to launch both the Action for Climate Empowerment Guidelines and the 2016 Global Education Report. The high-level event, Climate Education as a Driver of Change, discussed the role of education as key driver in moving forward the implementation of the Paris Agreement and the Sustainable Development Goals.

Momentum for Change Showcase Event, Nov 16: Connect4Climate participated in the Momentum for Change showcase event to highlight the importance of citizenship participation in addressing climate change. The Film4Climate 1st Prize Short Film Winner, *Three Seconds*, was screened at the showcase event, with brief remarks by its director Spencer Sharp and by Fernando Meirelles, film director, producer and screenwriter.

Activation activities: in the context of Young and Future Generations Day and Education Day, these media-friendly activities showcased how Connect4Climate is promoting youth-led innovative and ambitious solutions to climate change. Outreach materials, such as t-shirts, were distributed during these events and Connect4Climate was mentioned as a key partner in write-ups on the UNFCCC website and was given an opportunity to post an overview article.

UN Youth Booth: The UN Youth Booth incorporated the Connect4Climate videos as part of its multimedia experience. It served as the backdrop for video interviews with Connect4Climate representatives to showcase the initiative's accomplishments in mobilizing citizens to address climate change. Connect4Climate was presented as partner to Momentum for Change.

IV. Results

Young and Future Generations Day

Young and Future Generations Day included an Intergenerational Inquiry and other youth-led side events, workshops and activities to showcase innovative, ambitious and creative climate action taken by young people around the world, such as the COP 22 Youth Awards screening of the winning projects of the Global Youth Video Competition 2016 and Film4Climate Global Video Competition. Branded outreach materials, including T-shirts and reusable shopping bags, were distributed at the main events of the Young and Future Generations Day as well during Education Day.
